Start as You Mean to Continue: A Workshop for New Religious Educators

This is an exciting time to have chosen religious education as a vocation. We will explore the following topics: Leadership Skills, The Elements of Religious Education Programming, Planning for Professional Growth which will include information about the UUA Religious Education Credentialing Program and how it can work for you and your congregation. We will begin with some self-assessment strategies and end with a roundtable in which we will focus on your most pressing questions or concerns. We hope this time together will help make this challenging work more manageable and enriching.
